

USER MANUAL

Fog Machine model LED-500

500W Fog Machine-for indoor use only

Caution

Please read this manual carefully before operating!

Damage caused by misuse is not covered by the warranty!

CAUTION:

- Risk of electric shock! Disconnect the appliance from the electric supply before refilling fog fluid, before performing any maintenance, or before cleaning the machine.
- Check the level of fluid before and during use to make sure there is enough fluid in the tank. Operating the machine without fluid will cause severe damage.

500W Fog Machine User Manual

Thank you for purchasing this fog machine. Prior to use, please read all of the instructions. By following these operation, safety and maintenance instructions, you will ensure a long and safe life for your fog machine

CAUTION:

- Keep this appliance dry.
- Indoors use only! Not designed for outdoors.
- Prong grounded electrical outlet only. Please make sure.
- The machine is plugged in at the rated voltage before use.
- Always unplug the machine before refilling the fluid tank.
- Always keep this fog machine in a upright position. Never use it on an uneven surface.
- This fog machine is NOT waterproof or resistant. If it's wet and the fog fluid gets inside the machine, unplug this machine immediately and contact a qualified service center before using it again.

Danger of Burns

- Keep away from the reach of children. This product is meant for adult use only.
- Never leave this machine unattended.
- Never aim this machine directly at people or animals.
- Locate the fog machine in a well ventilated area.
- Never cover any vent holes on the machine, and leave at least one foot of space around the machine when it works, so that there is free flow of air to and from the machine.
- Never aim this machine at open flames.
- If the supply power cord is cut or otherwise damaged, it must be replaced by a qualified electrician or a service center.
- The fog nozzle gets very hot during the use of this machine (UP to 600F). Keep flammable materials at least 3 feet away from the fog nozzle.
- Before cleaning or servicing it, always allow the machine to cool to room temperature.

Danger of Explosion

- Never put any type of flammable liquids of any kind (example: gas, oil, alcohol, perfumes, etc) in the fog fluid tank. Do not mix these liquids to fog fluid.
- Use only fog fluid.
- Always make sure the fluid tank is full before using machine. Attempting to operate this machine without fluid will cause it to overheat and damage the pump.

- If your machine stops working properly, unplug it, drain the fog fluid from the tank, and have a qualified electrician or service center repair the machine.
- Never transport this machine filled with any fluid. Always drain fluids prior to transporting it.
- Do not ingest or inhale fog fluid. If fog fluid is ingested please contact 911 immediately. If fog fluid comes in contact with skin or eyes, rinse thoroughly with water and contact a medical doctor.

Operation

- 1. Remove all packing, open the tank and pour the high quality fog liquid (not included in the package) suitable;
- 2. Plug the fog machine with the power cable and preheating for about 3~5 minutes before using;
- 3. Remote use:
 - a: Press "R": The red fog effect;
 - b: Press "B": The blue fog effect;
 - c: Press "G": The green fog effect;
 - d: Press "FOG": the RGB color will shine together and create the gradual lighting effect with the fog.
- 4. Please preheating again if the fog machine stop working. It needs time to warm up again when the temperature cooling down.
